capture your baby's personality.

Celebrate your little one with a professional photoshoot, one-of-a-kind monogram and personalized website. Your babyMotif website will be a portal for all things baby, including a password protected "fan club" area where you can post photos, updates and even a playdate and event calendar. Couple this service with an **eventMotif** package and include electronic invitations and an RSVP area for special occasions. Monogrammed stationery, playdate cards and "Mom cards" are some of the personal touches you can expect.

an online space for your pet.

Your pet deserves an online presence too! Play up your furry (or not-so-furry) friend's captivating character with a professional photo shoot, customized to bring out her unique personality. A custom monogram and creatively designed website will finish off the package. You can add features such as a playdate calendar and photo gallery, and even printed calling cards and stationery! Everything you need for your stylish four-legged companion.

celebrate your family.

We start by learning what makes your family a unique "clan" and create a modern family crest that can be a heirloom for generations to come. Pair that with a professional photo shoot and a website designed to capture your family's distinctive essence. You also have the option to have a page for each family member to highlight their personality. Image consultations, photo books, calling cards and stationery are some of the elements you can use to compliment your motif.
